

The industry's most comprehensive solution for insect control, simplicity and choice

Take control of yield-robbing above- and below-ground pests by choosing DuracadeViptera.

DuracadeViptera™ trait stacks control 16 damaging above- and below-ground pests, more than any competitive trait stack.

Control of these damaging insect pests provides:

Above-ground: less damage from ear-, stalk- and leaf-feeding insects resulting in:

- Potential for improved stand and higher-yielding crop
- Noticeably healthier ears with less insect damage
- Reduced risk of mold and mycotoxin development provides high-quality grain and livestock feed

Below-ground: stronger, more robust root systems that lead to:

- Healthier plants
- Fuller leaves that allow for increased photosynthesis and maximum grain fill
- More robust stalks that stand tall

DuracadeViptera delivers more control of more insect pests:

Insect	DuracadeViptera™ trait stacks*	Duracade®	Optimum® AcreMax® XTreme/ Qrome®	SmartStax®/ SmartStax® PRO RIB Complete®
Corn Earworm	++++	++	++	+++

- **Alternate modes of action** help preserve trait **durability** and delay **insect adaptation** for long-term **field health**
- **Higher Yield Potential: 4.1 Bu/A** average advantage over products without Duracade® trait stack

Duracade trait stacks yield performance

Klemme, IA, 2012

Slater, IA 2021

Trait stacks with above- and below-ground insect control:

Trait stacks are available in a simple E-Z Refuge® seed blend, offering a convenient in-bag refuge, and many in combination with water-optimizing Artesian® corn hybrids, to provide growers a practical option to meet water challenges.

Talk to your seed reseller about the right above- and below-ground traits for your fields.
